## ONLY ONE CHANGE, EFFECTED IN COUNCIL

As a result of Monday's municipal elections, Messrs. W. McVey and M. Sartoris, retiring councillors, were re-elected to serve another term, while ex-Councillor Hamilton was defeated at the polls by Mr. Joseph Kubik. O. M. Olson and Arthur J. Pitt, union candidates, were defeated.

The personnel of the 1929 council will be: Mayor J. H. Farmer, Councillors W. McVey, A. E. Ferguson, Mark Sartoris, Joseph Kubik, W. A. Beebe and Evan Morgan.

The board of school trustees remains unchanged, namely: W. H. Chappell, R. W. H. Pinkney, J. Angus McDonald, W. A. Beebe and C. J. Tompkins.

The first regular meeting of the town council will take place on Monday night next, at which the organization will be effected.

## R.P.O.E. OFFICERS ARE INSTALLED

At the regular meeting of Blairmore Lodge No. 15, Benevolent and Protective Order of Elks of Canada and Newfoundland, held on Tuesday night, the officers were regularly installed.

In the absence of Bro. McKerrrow, D.D.G.E.R., of Lethbridge, who owing to the condition of roads over the Peigan Reserve, was unable to reach here, the duties of installing officer were entrusted to Bro. J. E. Gillis, P.E.R., who performed the ceremony, assisted by Bro. R. W. H. Pinkney, P.E.R.

The following officers were installed:

Past Exalted Ruler—Arthur E. Ferguson.  
Exalted Ruler—John A. Kerr.  
Esteemed Leading Knight—C. J. Tompkins.  
Esteemed Loyal Knight—W. W. Scott.  
Esteemed Lecturing Knight—R. Wootton.  
Treasurer—J. V. McDougall.  
Secretary—J. R. McLeod.  
Chaplain—C. B. Barrell.  
Esquire—Geo. Moffat.  
Tyler—James M. Stewart.  
Trustees—W. H. Chappell and H. H. Griesbach.

During the meeting, the report of the auditors for the years 1927 and 1928 was received, showing affairs to be in very good condition.

Following the meeting, hot dogs and coffee were served.

## BLAIRMORE WINS FIRST PLAY-DOWN GAME

A game that was almost void of thrills as far as the work of the visitors was concerned, took place at the local arena last night, when the Medicine Hat Monarchs and the Blairmore Bearcats met in the opener of home-and-home play-downs.

From the start to finish, Blairmore had considerable of the edge on the visiting team, with the result that Blairmore emerged winners in a six-to-two score. The game was refereed by Frank McKay, of Okotoks. Tony Veljprava, Bill Johnson and Fred McKay were responsible for Blairmore's scoring. The game was witnessed by about six hundred fans.

The return game will be played at Medicine Hat tomorrow night, the local team leaving tonight.

Should Blairmore win the series with Medicine Hat, in all likelihood the next play-down will be with Nanton, in which event home and home games will have to be played early next week.

Capt. F. N. Dancy will lecture at Pincher Creek on the night of Monday, February the 15th, under the auspices of the R.P.O.E. Capt. Dancy will also address the children of the school during the day and the Board of Trade at noon.

## FOOT—KNAPMAN

The home of Mr. and Mrs. S. Knappman was the scene of a quiet but pretty wedding ceremony on Monday evening at 6.30, when their eldest daughter, Ethel Doris, became the wife of Mr. Robert George Foot, of the engineering staff of the West Canadian Collieries Limited.

The ceremony was performed by Rev. Ernest O. Forde, pastor of First Baptist church, Lethbridge, in the presence of the immediate relatives and friends.

Following the ceremony, a sumptuous repast was partaken of, followed by a social hour, during which the well wishes of all present were extended to the young couple for many, many years of happy wedded life.

The newly-married couple were recipients of many useful and costly presents, as well as letters and messages of congratulations from friends far and wide.

Mr. and Mrs. Foot have taken up residence in West Blairmore, in the cottage formerly occupied by Mr. and Mrs. M. A. Pruden.

## DR. STEWART OPENS MINERS' HOSPITAL

The large Lyon residence on Eighth Avenue has been leased by Dr. R. F. Stewart, newly appointed miners' physician, and is being converted into an hospital. The appointments of the building are ideal for the purpose. Equipment is already being installed and emergent cases can now be attended to there.

The Olivier hospital in West Blairmore is also being maintained by Dr. Olivier.

## MISS COLE AND JUVENILES TO ENTERTAIN AT BELLEVUE

A grand high-class entertainment is promised at Cole's theatre, Bellevue, on the night of Tuesday next, February the 19th, when Miss Enid Cole and her juvenile entertainers will stage a big double programme, entitled "The Sleeping Beauty" and "Mrs. Wiggins' Afternoon Tea," interspersed by specialty items.

Artists will include: Misses Enid and Peggy Cole, Ella Rosio, Frances and Kathleen Costick, Janie McDonald, Mary and Caroline Kuryluk, Enis and Esther Chiarovano, Marie Lamey, Gladys, Grace and Marjorie Key, Evelyn Price, Marjorie Rhodes, Mildred Fisher, Grace Goodwin, Irene Wells, Marian Atkinson, Hilda S.rett, Dorothy Costick, Etta Price and Joe Jasbee.

The entertainment will be one of the finest ever staged in The Pass and we bespeak for the young artists a bumper house.

## NEW LODGE FORMED

AT MICHEL

A ladies' auxiliary of the Fraternal Order of Eagles has been organized at Michel with the following officers: M.P.W.P., Mrs. Cartwright; M.W.F., Mrs. Littler; M.W.V.P., Mrs. Walsh; M. chaplain, Mrs. Litherland; M.V. secretary, Mrs. Hall; M.W. treasurer, Mrs. Kozler; M. conductor, Mrs. Kotch; inside guard, Mrs. Hall, junior; outside guard, Mrs. Shilton; trustees, Mesdames Brown, Porter and Grumly.

A banquet followed the installation of officers.

Kenneth Jones, a lad of thirteen, was killed at Medicine Hat on Monday morning by being run over by a freight train. The train was at a standstill when the boy attempted to crawl underneath one of the cars. The train started and the boy was crushed to death.

A new German cruiser to be constructed at Kiel is to be electrically welded, no rivets being used in any part of the ship.

## From Pay Envelope to Dividend Cheque

MONEY laid by in youth is worth double the savings of middle age. Many a rich man today bought the right to his dividends with the savings he made once out of his pay envelope. Anyone with determination can do the same.

The man who saves is the man with money.

**Loose Leaf Tea**

**Pure Ribbon Tea**

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavor is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

## WORLD HAPPENINGS BRIEFLY TOLD

A report that Russia and Japan had severed diplomatic relations was officially denied in Moscow.

Thirty-two named, or numbered varieties and strains of spring wheat were tested at the Central Farm at Ottawa in 1927.

Captain Isaac Coffin, believed to have been the last survivor of the Cimet War, is dead, aged 93. He was born in St. John, N.E.

Production of automobiles in Canada during the calendar year 1928 reached a new record of 242,382 cars, having a sales value f.o.b. plant of \$101,826,338.

The U.S. House and Senate conference on the deficiency appropriation failed to agree on the Senate amendment to provide \$24,000,000 for dry law enforcement.

James Melrose is dead at York England, at the age of 100 years. He was refused a policy of an insurance company as a "bad risk" because of his life. He was lord mayor of York, in 1866 and 1877.

Miller's Worm Powders will purge the stomach and intestines of worms so effectively and so easily and painlessly that the most delicate stomach will not feel any inconvenience from their action. They recommend themselves to mothers as a preparation that will restore strength and vigor to their children and protect them from the debilitating effects which result from the deprivations of worms.

The only difference between the composition of the sugar on your table and the gasoline in your car is that the sugar contains a gas called oxygen which the gasoline does not.

## What Will you do

## When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops and that colic or constipation is relieved; or diarrhoea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby; however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies for every day ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

**Fletcher's CASTORIA**

W. N. U. 1773

## Moved Large Tree

White Oak At Wellesley, Mass., Was Lowered Six Feet

An unusual feat of tree moving has been performed at Wellesley College, Wellesley. A large white oak observed the Christmas vacation by being lowered six feet. The cause of this descent was the necessary lowering of the hill on which the new dormitory, Stone Davis Hall, has been erected.

A large excavation was dug under the tree, which previously gave the appearance of being on a pedestal, and then powerful jets of water undermined the pedestal, and the tree dropped six feet to its new location.

## Sets Fractured Arm By Radio Instructions

Operator in Arctic Gets Medical Advice from Ottawa

Receiving medical instructions through 1,700 miles into the Arctic by wireless, and setting a fractured elbow is the accomplishment of G. Hudson, radio operator at Hope's Advance, in the Hudson Strait. The story is told in a series of cryptic messages between Hudson, at the range-finding station in the north, and the short-wave station of the Department of Marine at Ottawa.

Preceding his first message by "Rush Medical," Hudson said that H. H. Hall, a fur trader, suffering from an elbow injury, had succeeded in reaching Hope's Advance from Dinna Bay by dog sled. First aid had been supplied, and he asked that a diagnosis and instructions for treatment be rushed back.

Within 50 minutes P. Woodrow of the Trail Radio Station had obtained the required help from Dr. J. J. Hagarty of the Department of Health. In the lonely station in the north the operator succeeded in locating a condition and setting the arm in splints. His latest message indicated that his patient was progressing satisfactorily.

## Does Not Always

Require Intelligence

Establishing Facts in Mathematics Accomplished by Ignorant Persons

The gift of computation does not according to scientists, of necessity indicate a high order of intelligence. A famous example, writes "English Literature," is that of Tom Fuller, a Negro slave born in Virginia, who though he could neither read nor write, astonished 18th century investigators by his feats in mental arithmetic. Jacques Inaudi, again, who could multiply four figures by four figures in his head as rapidly as a skilled operator could perform the feat with a machine, was merely an imperfectly educated peasant from Piedmont. He could also give the product of still larger numbers, but the advantage then lay with the machine. Some eminent mathematicians have, of course, also shown as computers, and Euler must have had marvellous powers of what, Babbage called "registration," since he was able to pursue his mathematical researches after the loss of his sight.

## To Prevent "Flu"

INFLUENZA GERMS FIRST ATTACK THROAT

Dangerous germs which lodge in the breathing give you Croup, Flu, or Influenza. You can destroy these germs if you cleanse your nose, mouth and throat with Catarrhine. When the healing vapor of Catarrhine is inhaled it releases powerful antiseptics which destroy every vestige of germ life.

Protect yourself against "Flu" by using Catarrhine. It attacks a cold in a few minutes; cleans the nostrils, takes soreness out of the throat. All the irritating matter in the nose and throat that smells so bad, that gives you a headache and makes you cough—Catarrhine clears it all away.

For Influenza, Catarrhine, Nose Colds, Irritable Throat. You get prompt and effective action from Catarrhine. Carry the Inhaler in your purse or pocket, and use it frequently. Complete outfit \$1.00. Smaller size 50c. at all dealers.

Four million miles of flying were recently completed by the cross-channel fleet of the Imperial Airways. Since 1924, the company's planes carried more than 97,000 passengers and 3,000 tons of freight between London and the continent of Europe.

## ECZEMA RASH ON HANDS

Troubled For Three Years. Healed by Cuticura.

"I was troubled with eczema on my hands for three years. It appeared in a rash and then formed blisters. It troubled me much worse in winter so I could hardly put my hands in water or be near heat. My hands were terribly inflamed and disfigured. I had to wear old gloves to keep from scratching."

"I saw a Cuticura Soap and Ointment advertisement and sent for a free sample. I got relief from it so I bought more and after I had used them for three months I was healed."

(Signed) Miss Beatrice Allen, Highwater, Que.

Use Cuticura Soap, Ointment and Talcum for daily toilet purposes.

Sample Soap Free by Mail. Address: Canadian Soap Co., Montreal 10 and 110, St. James St. (Opp. Court House) Montreal 10, Que.

## THINNESS

Over-thinness is detrimental to a child's progress in growth and health.

## Scott's Emulsion

of vitamin-rich cod-liver oil is a body-building food and tonic that overcomes thinness and helps build up a sturdy body.

Scott & Bowman, Toronto, Ont.

## Preparing For Air Service

Aerodromes Are To Be Built In South African Jungle

Jungle aerodromes are being laid out in Africa in preparation for the air service from Cairo to Johannesburg. Thousands of trees have had to be felled and their roots dug up to provide landing spaces. Ant-hills have been, in many places, removed by hand, as no other means were available. Some of them were over 25 feet high. Experiments with flights are to be made next summer as a preliminary to the regular service. The whole journey of 5,000 miles will take five or six days instead of two months by existing means of transport.

## Mothers Warned Of Colds That Follow the Flu

Attack Weakened System and Pave Way For Pneumonia or New Case of Influenza

## BEST TREATED EXTERNALLY

Physicians advise that the chief danger in this epidemic is after influenza. Then, more than ever, colds attacking the weakened system may lead to bronchitis, pneumonia, or a second and more severe case of flu.

This is especially true of children. A flu nearly always leaves the stomach upset. Internal medication should, therefore, be avoided, as it so often further disturbs the digestion and thus retards recovery.

But, if fresh cold comes, don't let the child keep it overnight. Just rub Vicks on throat and chest at bedtime. As it is applied externally, Vicks can be used freely even on the youngest child, with no fear of upsetting a delicate stomach.

Vicks acts two ways at once (both absorbed and inhaled) to check the cold and avoid serious complications. And, of course, it is just as good for adults.

## Four European Tours

C.N.R. Complete Arrangements For Personally Conducted Trips This Summer

Pennies are being saved, and History and French are being brushed up by scores of Western Canadians who are looking forward to a tour of Europe this coming summer. Early as it is in the season, the Canadian National Railways have already announced the completion of arrangements for their four annual personally conducted European tours. The "Camden," "Andania," will leave Montreal on July 5, and from that word "Go!" it will be high time for the school-teachers and other lucky ones who are on board.

Motor jaunts through England and Scotland will take in places such as London, Edinburgh, Glasgow, and the travellers will have even greater leisure to visit the joy of going down into Italy—Milan, Venice, Florence, Rome, Genoa—and to Nice and Monte Carlo.

The first return steamer, the "Aitania," will depart from Southampton on August 3; the second, the "Ausonia," from Cherbourg, on August 10; and the third, the "Alania," from Cherbourg, on August 24.

The Many-Purpose Oil. — Both in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest.

Horses are liable very largely to similar ailments and mishaps as a rule, and Dr. Thomas' Electric Oil is amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

## Transforming Palestine

A powerhouse is being erected on the River Jordan a few miles below the Sea of Galilee. The river drops 2,000 feet in 104 miles. Automobiles, electric light and steam railway trains are working a transformation in Palestine.

## SUNDAY SCHOOL LESSON

FEBRUARY 17  
PRAYERS

Golden Text: "If ye abide in Me, and My words abide in you, ye shall whatsoever ye will, and it shall be done unto you."—John 15:7.

Lesson: Genesis 12:2-3; Exodus 32:31, 32; Nehemiah 1:4-11; Daniel 6:10; Matthew 6:5-15; Luke 18:1-14; John 17:1-26; Thessalonians 5:17; 1 John 5:14, 15.

Devotional Reading: Psalm 121:1-8.

## Explanations and Comments

Prayer Should Be Sincere, Mt. 6:5-8.—And when ye pray, ye shall not be as the hypocrites; for they love to stand and pray in the synagogues and in the corners of the streets, that they may be seen of men. It was the appearance of righteousness that the hypocrites coveted, not righteousness itself.

"To be seen of men is, after all, one of the most influential incentives to human conduct. Some people go into reckless extravagance in order to be seen of men as rich; and the average person would hardly be seen to have certain qualities than actually to possess them."—H. S. Brewster.

"Verily I say unto you, 'They have received their reward,' said Jesus in regard to the hypocrites. The Greek word translated 'received' means 'received in full' and is the one used in drawing up receipts. They have received the full reward which they have no claim whatsoever to any further reward.

"Nor will he to those lips attend. Whose prayers are not sincere."—John Staddon.

But, when, when thou prayest, enter into thine inner chamber, and having shut thy door, pray to thy Father, who is in secret. The inner chamber with closed door stands for any place where we are alone with God. For Peter, it was under the fig tree. For Jesus himself, the mountain-side and the garden for His communing with His Father. When you pray shut out the world and shut yourself in with God.

"Dew falls, we are told, only when the atmosphere is still, and the dew of prayer will fall abundantly on our souls only when we are at leisure." Jesus is not disparaging public prayer (which He elsewhere commends), but He is emphasizing the fact of sincerity which private prayer affords.

And thy Father who seeth in secret shall recompense thee.

General William Booth started the Salvation Army standing on a soap box outside a saloon in the East end of London.

A Remedy For Earache.—To have the earache is to endure torture. The ear is a delicate organ and fears to deal with anything but the work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

## Business Was Good

Four million miles of flying were recently completed by the cross-channel fleet of the Imperial Airways. Since 1924 the company's planes carried more than 97,000 passengers and 3,000 tons of freight between London and the continent of Europe.

Once when mother spoke of reducing the meat expenses.

## Foods Stay Fresh Longer This Way

Covered with Para-Sani Heavy Waxed Paper goods that usually stale in a day or so stay fresh for quite a long time. Try it. Get Para-Sani in the handy, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting uses get "Centre-Pul" Packs in sheet form.

## Livestock Industry Prosperous

The livestock industry of Alberta was responsible for a revenue of \$8,775,257 in 1928, according to D. A. McKenzie, Dominion markets representative. The livestock industry is enjoying a measure of prosperity which should encourage those engaged in this branch of agriculture to face the future with confidence, he stated.

## FOR MOTHERS OF YOUNG CHILDREN

Mothers are quick to praise anything which brings health and comfort to their little ones—any medicine that will make the baby well and keep him well will always receive hearty recommendation from the mother. That is why Baby's Own Tablets are so popular. Thousands of mothers throughout the country, not only use them for their own little ones but are always delighted to be able to recommend them to other mothers. Thousands of mothers have proved Baby's Own Tablets to be without an equal in relieving their little ones of any of the many minor ailments which arise out of derangement of the stomach and bowels. Baby's Own Tablets are the ideal laxative—easy to take but thorough in action. They banish constipation and indigestion; break up colds and simple fevers; expel worms and make the teething period easy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Reduce the Acid

Black stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia. Because it has no harmful, tasteless, odorless neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions. No drugstore.

## THE CRIMSON WEST

Published by Special Arrangement With Thomas Allen, Publisher, Toronto, Ont.

### CHAPTER XIV.—Continued.

"To hell with him!" shouted Hand. "He don't dare do it. Bush him." But the mob did not obey their leader's rash command. Donald's pale face and burning black eyes were sufficient evidence that he made no idle threat. Donald saw the big hand of his foreman reaching to the belt of the heavy Colt that hung at his side. "Keep cool, Jack," he begged; "don't start anything."

For days Gills had been without sleep. He turned bloodshot eyes on Donald. "By G— it would like to take a crack at Hand," he said in a voice thick with rage.

The hostile crowd did not advance; neither did they leave. Scattered in groups, they lay or sat on the hillside to shout occasionally words of derision at Donald's faithful crew.

Donald's nerves were on edge. At any moment there might be a pitched battle with loss of lives. He studied the faces of the strikers to see how many were from his camp and was surprised to recognize fully 40 of his men. He saw "Blackie" in the rear of the crowd of strikers. When his eyes met Donald's he turned away shamefacedly. All the axes from his camp refused to meet his gaze squarely. "Those men are ready to come back right now," he said to Gills. "Hand has bullied them into this. Don't you think so?"

"I don't know," answered Gills. "I never thought Blackie would go back on me. I'll wring his d— neck when I catch him in town!" he added bitterly.

Donald heard a slight movement behind him, and turned to see Connie standing with her rifle in the crook of her arm.

"Good heavens! Connie, you shouldn't be here!" he exclaimed.

Connie's face bore traces of weariness and sleeplessness. For three nights she had stood sentry away from her cabin on the hillside to the hidden outside that of Donald. By night she had kept up a weary vigil, ever on the alert; in the forenoon she had lain behind a stump on the hill with eyes on Donald's tall figure whenever he came in sight, her rifle ready for instant action. Hand did not know that death had nearly claimed him when he stepped forward to urge his men to charge. At that crucial moment, Connie's rifle was aimed at his heart.

"Get away from here at once, Connie!" said Donald, firmly, but kindly. Connie lowered her eyes to her moccasin foot, that was weaving

patterns in the dry soil, and shook her small head obstinately.

"Why do you wish to stay?" he asked.

She patted the stock of her rifle. "I— I want to help you."

Donald looked down at the weary little figure. He stepped down from the stump, keeping a wary eye on the belligerent strikers, and came to her side. "Connie," he said softly, "you are a dear, brave little girl, but you must get away from this place as there may be serious trouble. Please, Connie," he entreated, reaching out a hand to stroke her shining hair.

Connie's face paled quickly, and she shrank from the caress. Her slender body trembled at his touch, and his display of tenderness brought a sudden rush of tears to her eyes. But she made no move to leave the scene.

Finding that he could not shake Connie's determination to stay, Donald returned to the vantage point of the stump. "Jack," he said, turning to his big foreman, "I am going to make one last appeal to these men. If I am any judge of human nature about half of them, if they can save their faces, will welcome the chance to go back to work. They are being dominated by Hand."

Gills shrugged his shoulders. "Do what you think best," he said. Donald passed the dynamite to Gills and stepped forward with his arms extended, palms upward. The crowd moved uneasily. Hand came slowly to his feet, his small eyes narrowed with suspicion.

"What's up?" he growled.

"Men," Donald began in a high clear voice, "I would like to converse with you that you will gain nothing by your present tactics. Bloodshed will surely ensue. I have offered to refuse your exorbitant demands. Personally, I have no choice in the matter; there is no other course for me to pursue. In spite of your interference we will continue working with the few men who have remained loyal. I will ask for police protection only as a last resort. I appeal particularly to the men who worked for me here at this camp. Is there one of you who can truthfully say that you were not accorded fair treatment? Is there one of you who will not admit that the general equipment for your comfort is unequalled in any camp in British Columbia? You are making a mistake, men," he went on in a pleading tone, "a mistake you will be sorry for later, for you will be blacklisted in every camp in the country. Go back to work, and I promise you there will be no mark against you. That's all."

Donald walked back to Connie's side. The men had not interrupted him once.

Hand turned to the wavering crowd. "To hell with him and all capitalists!" he snarled. He turned to shake a huge fist at Donald. "You threaten us, do you? You d—"

The epithet that came from his

course lips was one that would cause any decent man to see red.

Donald stiffened. His face turned livid. "You dirty cur!" he flamed. "Don't you know that there is a lady present? You apologise to this little girl or I will whip you within an inch of your life!" His voice trembled with passion.

"Lady," scoffed Hand, "what you call a lady? She moost be nice lady, runnin' in de woods wit' you ev'ry Sunday."

A murderous look shot from Donald's dark eyes. A terrible rage possessed him, a rage that made his blood feel hot in his veins and gave him the unnatural strength of a madman. A dull red flamed in Connie's tanned cheeks. She sat down and covered her hot face with her hands.

Hand now came running from the cook-house, dressed in white cap and apron, his rifle trailing at his side. "What's goin' on, Donnie?" he questioned.

Donald did not answer. Gills spoke to Andy in an undertone. "My God, Donnie, 'e's twice your size! Don't fight 'im!" implored Andy.

"I'll kill him!" rasped Donald. Gills raised his arm. "Let me fix the d— skunk; he's nearer my size."

"No, this is my affair!" shaking himself from the grasp.

The sound of a paddle came from below, and the trapper sprang from his dugout and came swiftly up the hill. As Andy briefly explained the situation the old man's grey eyes narrowed to mere slits beneath the shaggy brows.

"Ah!" he breathed. "Me and Betsy," patting his six-shooter, "we likes to shoot up bounks. We shoots them in the heel so's to save their clothes." His mouth was set in a grim smile, a smile that contrasted with the steady look in his deep-set eyes. He seated himself on a log and placed his gun on his knees.

Donald had by this divested himself of coat and shirt and now stepped forward dressed in light cotton trousers, a sleeveless undershirt and moccasins. "Hand," he said in a steady voice, "his is between you and me. See to it that your men do not interfere; I will vouch for mine."

The big foreman was rubbing his big hands as though in pleased anticipation. "I suppose you know how we is goin' to fight? Everything goes, you know." His grin was fateful.

Donald knew what was meant. There were to be no rules of combat; no time duration; no referee; no rounds, and woe to the man who should go down. It was to be a battle as of primeval man. It might result in terrible injury and mutilation. He sickened at the thought.

(To Be Continued.)

## Help Would Be Welcome

Prosperity Enjoyed in Canada Should Make People Generous

The British government, staggering under a burden of taxation never before borne by any other nation in modern history, has done all that was humanly possible in the way of providing state safeguards against the conditions which now prevail. Yet stark poverty stalks through the land, and semi-starvation and exposure have combined to make an attack on a people which a disease epidemic would change into a tragedy that would strit the entire English-speaking world. Circumstances beyond the control of the stricken people are responsible for their adversity; circumstances largely beyond our own control have made Canadians so prosperous as to be able to extend a helping hand at once.—Toronto Globe.

## How He Understood It

One day, in the third grade reading class, the teacher was telling a story of a dog and a fox. When she came near the end of the story she said, "And the cunning fox jumped up on the stone wall and ran along it, and the dog lost his scent."

When she finished the story she called on the little Italian boy in the class to repeat the story.

Joe started all right, but as he came to the end of the story he said, "An' de cunning fox, he jump up on de stone wall an' run along it, an' de dog, he lose his penney!"

## Largest of World

The Canadian Government Experimental Farm system now embraces twenty-seven farms, seven of which are used for the purpose of testing and for teaching the practical application of scientific principles. The system is the largest of its kind in the world.

# CHRISTIE'S ARROWROOT

## Recipes for This Week

(By Betty Barclay)

### GRAPE MOLD

5 tablespoons quick-cooking tapioca.  
1/2 teaspoon salt.  
1 pint hot grape juice.  
1/4 cup sugar.  
1 cup shredded pineapple.  
1 cup quartered marshmallows (if desired).  
2 egg whites.  
Lady fingers or strips of sponge cake.

Cook tapioca and mix in the hot grape juice in a double boiler 15 minutes, stirring frequently. Stir in sugar. Remove from fire and add pineapple. When partially cooked, stir in the marshmallows (if desired), and fold in the stiffly beaten egg whites. Arrange split lady fingers around sides of a glass bowl or around individual sherbet glasses. Pour in mixture and chill. Serve with whipped cream. Lady fingers or sponge cake may be omitted.

### MACARONI WITH OYSTERS OR FISH

8 ounces macaroni.  
1/2 teaspoonful salt.  
1-6 teaspoonful pepper.  
2 tablespoons butter or a substitute.  
1 pint oysters.

Cook the macaroni until tender in boiling salted water, drain, then season with the salt, pepper and butter. Oil a baking dish and put a layer of the macaroni into it, then a layer of oysters which have been carefully picked over, more macaroni, more oysters, and so on until the dish is full. Four the liquor from the oysters over the top—there should be a cupful of this liquor—if there is not enough make up the deficiency with milk. Bake twenty minutes in a moderate oven—350 degrees F.—and serve with tomato catsup.

Cold left-over fish may be substituted for the oysters if desired, using left-over sauce or milk for the moistening in place of the oyster liquor.

## The Carnival Of Noise

Much of It Is Unnecessary and Could Be Eliminated

The present high peak of street noises has been reached so gradually that many persons have not fully appreciated what they are allowing others to inflict upon them and have not stopped to consider whether, in fact, the various components that make up the existing pandemonium are really necessary and unavoidable. Each new addition has been accepted with astonishing complacency. The unlicensed motorcycle, the klaxon, the heavy lorry, the airplane, the steam tractor and the pneumatic drill, have been tolerated. Each of these noisy inventions has been turned loose without let or hindrance and people have ceased to marvel at them or to wonder what diabolical invention engineering science will thrust upon them next.

## Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callos on the feet or toes—thats of the time to put on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

## A Clever Idea

The Durham Chronicle tells of a young man who visited a store in that town, purchased three dozen eggs on credit, took them to another store and sold them and used the money to buy gas for his car. This is probably the first instance of a thirty-six hen-power automobile.

## Use Minard's Liniment for the Flu

May Be the Reason Women's feet are now two sizes larger than they were twenty years ago, according to an orthopedic expert. In this because she has been trying to fill man's shoes.

## Little Helps For This Week

"Give us this day our daily bread." Matthew vi. 11.

Master, help! From hour to hour, Lord, I need Thy saving power, Not to soothe tomorrow's woes, Not to bless tonight's repose. Now I hunger to be fed; Give today Thy daily bread.

Every moment hold my hand; Without Thee I cannot stand. Show my foot the place to tread; Step by step I must be led. Before me all the way; Give me daily bread today!

—Rose Terry Cooke.

What is this bread, O my God? It is not merely the support which Thy providence supplies for the necessities of life; it is also the nourishment of truth which Thou givest each day to the soul. It is the bread of eternal life, giving vigor, and making it grow in us. Thou dost renew it every day. Thou givest within and without precisely what the soul needs for its advancement in a life of faith and renunciation. For whatever happens to me each day is my daily bread, provided I do not refuse to take it from Thy hand and feed upon it.

A steadily increasing group of words making its way into the dictionary is that of dialectal, provincial and local words and expressions.

An official report states that five hundred kinds of material are used for men's shoes.

## Don't Neglect Bronchial Colds

Pneumonia, the most dangerous of all diseases, develops from common colds. It is caused by a germ which enters the lungs through the nose or throat. It is a scientific combination of ingredients and is sold by all druggists and guaranteed.

## FLU Germs Breed in the Throat.

First Appear As A Common Cold, But Gain Tremendous Headway in Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

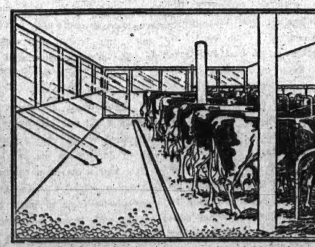

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most efficient gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

# WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooder houses, etc. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 26 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness weighs about 135 to 150 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.25 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask in 100 % Sunlight Send for booklet "WINDOLITE"

## DID YOU EVER STOP TO THINK?

(By Edison R. Waite, Shawnee Oklahoma)

John H. Payne, general manager of the Pensacola (Florida) Journal News, says—

That Kipling had one of his heroes to say: "The captain is imagining he is a colossus. He figures where he would go if he were—how we weigh anchor, sail to that spot and sure enough there's where the 'cod' are. That's why he's captain of the fleet."

That's adaptability.

It's the adaptability of the human animal that causes it to exist from the frozen, frigid regions of the cold north to the stifling, maddening heat of the torrid zone, and yet live. To live, to succeed, we must become part of the air we breathe, a sympathetic portion of the community we live in.

The buyer goes to market and looks for patterns, styles, values from his customer's eyes—their desires, their wishes, their longings, their circumstances.

When the goods arrive the window trimmer (who won't always be a W. T.) arranges the display as he'd want it—if he were Mrs. Brown.

The intelligent advertising manager says: "It was bought right, the display is correct; now what would Mrs. Brown like me to tell her in this ad?" (There's where the advertising manager does his commonsense, heavy, though simple thinking). And the ad carries the simple, sincere, truthful information Mrs. Brown has been waiting for—hoping for.

The smiling saleslady (who's going to the head of her department) looks at the article, talks to the buyer about it, compliments the decorator on his rare display, reads carefully the ad, and is ready to meet Mrs. Brown with a smile and further information.

The foregoing is co-ordinated adaptability. Results?

The newspaper advertising pulls like sticking plaster. The owner of the store has to enlarge. The town grows—everybody is getting ahead. It's a great thing this co-ordinated, synchronized adaptability.

FATHER OF BELLEVUE MAN  
DIES AT THORBURN, N.S.

The death of Mr. George McLeod, one of Thorburn's best citizens, which occurred on January 19th, is announced by the New Glasgow Free Lance.

Mr. McLeod was seventy-two years of age and is survived by his wife, formerly Annabel McIntosh; three sons, John R., of Bellevue, Alberta; Arthur, of Drumheller, Alberta; and Hugh, of Watertown, Massachusetts; and four daughters, Mrs. Hastings, of Edmonton, Alberta; Mrs. Nellie Foster, of New Glasgow; Mrs. Dr. Long, of Fredericton, N.B.; and Mrs. William Davis, of Westville. Mr. McLeod's death marked the first break in the family circle over a period of forty years.

KNIGHTS OF PYTHIAS  
CELEBRATE BIRTHDAY

The members of Livingstone Lodge No. 22, Knights of Pythias, were hosts at an anniversary party held in the Castle Hall on Friday night last in celebration of the sixth birthday of the lodge.

The Sisters of Greenhill Temple No. 10 were present and participated in a game of whist. Following 15 hands, prizes were presented, followed by refreshments and dancing.

## A BROADSIDE COMING

We are momentarily expecting another broadside from the Alberta Prohibition Association following the declaration of profits for the fifteen months ending March 31, 1928, made by Commissioner Dinning and his army of liquor salesmen.

Over two and a half million dollars have been placed in the provincial treasury, an increase of \$235,069 over 1926. The dear old puritans who were indignant at the thought of any government peddling booze, will have many sleepless nights until some denouncement has been prepared and distributed. We can feel it coming—a bunch of statistics telling us just how many bootleggers were placed in Duranville, how many permits were cancelled, how many bottles of whiskey per head were consumed in the province and possibly an interesting diagram showing that if all the liquor and beer had been poured in the Pacific that the whole of California, Oregon, Washington and British Columbia would now be submerged and Banff would be a seaside resort.

At this point we find it necessary to remark that our 1928 permit showed six entries and so far we have not felt the urge to purchase a new one for the current year. We are pleased, however, to read Mr. Dinning's report and rejoice in the fact that instead of the province spending two and a half million dollars on prohibition enforcement, the exchequer has benefitted by that amount.

We know that the people of Drumheller and district have done their share to make this spectacular profit and we are rather proud of the fact that Drumheller is just about as respectable and free from lawlessness as any other average community on the North American continent.—The Drumheller Mail.

## LET'S HAVE THE FACTS

If the R.C.M.P. can police the province at a saving, why can't the provincial government reorganize and effect in a measure this saving? A frank discussion of the whole situation would appease the minds of the public. If it is wise to carry on as at present, the people should be told why in a most detailed manner, not simply by a blanket statement.

We have heard that the R.C.M.P. pays much lower salaries. We don't want a police force to work on a starvation wage and be ripe candidates for bribe-givers.

Let's have the facts.—Clareholm Local Press.

LIQUIFIED COAL VISUALIZED  
IN NEAR FUTURE

Advanced scientific processes including liquification will be applied to Canadian coal within the next few years, investigation to that end having already been undertaken by at least one group of substantial interests in the Alberta coal fields, it was predicted at Winnipeg recently by Jesse Gouge, a large coal operator of Drumheller, Alberta.

Liquification would reduce the whole body of coal to liquid coal and further operations would reduce it to various oils, gasoline and other constituent parts, he stated. In its changed form coal could be shipped in tank cars or through pipe lines.

Oil for heating purposes would not however supplant coal unless the distance was so great that transportation costs would make the oil from coal more economic, he added.

The central and west ward schools were both without water over the week end, owing to connection with the mains becoming frozen. To relieve the situation at the central school, the board on Monday afternoon decided to run a surface pipe line across from the Orphanum Theatre, which will be maintained until the service from the State Street main is restored. By use of an electric thawing apparatus, water was restored to the west ward school on Sunday.

## THE TEN CURLING

## COMMANDMENTS

1. Thou shalt have no other game but me, for I am the roarin' game which was in the beginning (even in the stone age), is now and ever shall be.

2. Come not unto the ice with the old house broom. Thou canst not quicken the pace of a dying rock with a last year's broom.

3. Thou shalt learn thy turns, both the out and the in, for the skip will not hold him guiltless who throweth the wrong turn.

4. Play not a running shot when thou art asked for a guard, lest thou raise thine own shot, so sending thy skip in the air; such play getteth his goat, quereeth his game, causeth him to swallow his gun and to revile thee openly.

5. Thou shalt harken diligently to the defeated skip when his voice is lifted up in lamentations against thine ice, and thou shalt not turn thy face from him when he blameth the third man. Even so shalt thou secure a listener against the day of thine own defeat.

6. Thou shalt not strew straws from thy broom in the path of thine own or thine adversaries' rocks. Nor shalt thou spit in front of them, causing them to become pork for even as pork is an abomination to the Jew, so also is the hog in sight of the skip.

7. Thou shalt have no discourse with thine adversary while his foot is in the hack, and his hand on the rock, but if thou wilt, thou canst gay for him.

8. Thou shalt not push or kick a rock into the house from behind stealthily, for the opposing skip will know of a surety and his anger will be kindled against thee and spite thee, even with the edge of the broom handle, and thrust thee hence from the sight of the curlers, and the days of thy curling will be ended for this is an unpardonable sin.

9. Thou shalt not covet thy opponents' rock, nor his broom, nor his third man, who is his mainstay and wall of defense in the day of battle.

10. And when thou comest to the last end and hast won the game, and hast still a rock to play, and thou playest with great deliberation, and thy rock gambols down the ice, sailing jauntily round the guard and through the port, and wicket the shot rock, and thou comest down the ice in fear and trembling, and art hailed by the enemy as a good speed and curler, and by thine own side with groans and murmurs, and faintest thou hast godded the game away, thou shalt respect the proffered hand of thine adversary and vying it, even if it thine heart thou shouldst wish it were his neck.

A London insurance official has just died, aged 82, leaving a fortune of £150,000, due entirely to strict attention to his duties, a never-failing desire to oblige his corporation's clients, his endless patience in trying circumstances, his ever-readiness to work early and late, and a bequest of £149,800 from an uncle in Australia.

While the new amendment to the gasoline tax is intended to favor the farmers of the province, yet the majority of farm community papers are opposed to it, claiming that a five-cent tax on gasoline is abnormal and that conditions do not justify the increase.

Because an Aberdonian named George Sangster committed suicide near Saskatoon last week, an idle Blairmore sent a note of congratulation to a fellow of the same name in Aberdeen.

A loyal Scot writes to the Strathmore Standard, explaining certain peculiar phases of Scottish nature. He says that it is Scots who for centuries have written all these jokes on themselves and sold them to English readers. Never once have they given themselves away. The Scot does not

in reality prefer the haggies to other music; but you can't make a grand piano out of the internal workings of a sheep. The Scot is quite aware that the music from his instrument is unbearable, but nature says to stay with it and Scottish is tolerant.

**You Must Tell Them To Sell Them!**

### APPEAL ALLOWED

The Appellate Division of the Supreme Court of Alberta quashed the conviction made on the 12th day of December, 1928, against Cecil L. Wismer, an agent of the Fuller Brush Company, Limited. The conviction was made by Justice of the Peace Albert J. McKenzie, and the charge was preferred under By-Law No. 101 of the Town of Pincher Creek.

The Appeal was taken by way of stated case under Section 781 of the Criminal Code of Canada, the appellant raising ten grounds of objection to the validity of the conviction.

After hearing argument by counsel the court unanimously decided that the conviction should be quashed with costs.

Mr. Donald Thomson, K.C., appeared for the Town of Pincher Creek and the chief of police. Mr. F. O. McKenna, who represented the Fuller Brush Co., argued the case on behalf of Wismer.—Pincher Creek Echo.

### TEN-CENTS-A-QUART WHISKEY

The Canadian whiskey combine reports to its stockholders that the total manufacturing cost of its product is between eight and ten cents per American quart. If it cost only eight to ten cents to manufacture a quart of real whiskey, it must cost a good deal less to make fake whiskey. That may explain why the

profits in bad booze can be split so many ways and give all concerned a lot of money. If it were not for these enormous profits, there might

be some hope of curbing the bootleggers.—Boston Post.

At Hanna on Monday last, a real

"Battle of Harrys" ensued in an election contest. Of five candidates nominated for council, four were Christian-named Harrys.

**In Ancient Egypt**

The art of brewing was known and practised for many hundred years before the Christian era. In 450 B. C. we are told that the Egyptians being without vines made a wine or beer from corn. Pliny and Helianthus inform us that the Egyptians are thought to have derived their taste for "Zythum" (meaning a barley drink) "because it was so necessary for human bodies."

Today malt beverages, BEER, ALE and STOUT are considered Health Drinks.

Where BEER has once been introduced, it has generally become the national beverage.

### Education and Leisure

It has long been the boast of Western Canada that its people are intensely interested in education. With pride the people have drawn attention to the fact that in towns and villages the most outstanding structures are the schools, while the vast expanse of prairie has been dotted with rural schools, the number of which in the three prairie provinces now approximates closely to ten thousand. These thousands of rural and village schools, larger public and high schools in the towns, still larger schools, collegiate institutes and colleges in the cities, and the three Provincial universities, are but the visible expression of the determination of the people of the West that the children of this and future generations shall not only thus be "prepared for life," but that they shall come to realize that education is life, inasmuch as it is both the accompaniment and the experience of life.

It is said that education is entering upon a new era. No doubt it is, because in this changing world we are always entering upon new eras, and education must do likewise. The basic aims, the great objectives of education abide. Methods change and the setting varies, but it remains true that health is fundamental, the tools and techniques of learning are necessary, citizenship is inescapable, service is a radiant star, home is man's great joy, leisure is liberty, and character is humanity's highest goal.

Education is not confined to school and college. It does not even begin there, and certainly it does not end there. School is but a means to an end. Through it certain knowledge is imparted, but it is that which our schools would be a dismal failure. At best, schools in imparting knowledge give us tools to use, and, to some extent, show us how to use those tools and others which we will acquire as we journey through life. But education is not passing examinations from one grade to another or the attainment of degrees. Education is a training of the mind and equipment to enable us to meet all the joys and pleasures of the mind and sorrow, the duties and responsibilities, the vicissitudes of life, and put them all to the highest possible use.

An educated nation, it has been said, is one that has learned to pursue its interests to the point of a true and catholic culture, to penetrate its prejudices until it has come at truth, and to discover that every man has a contribution to make to the great society in the service of which he attains to freedom.

Five or six years ago, the National Council of Education held a great and noteworthy conference in Toronto, the theme of which was "Education and Life." In April next it will convene another conference in Vancouver, with the general scheme of its programme "Education and Leisure." The subjects for discussion by noted authorities from all parts of the world include: Literature; The Moving Picture; Music and the Drama; The Radio; Organized Play; Recreation; Hobbies and Handicrafts; Health in Relation to Leisure.

Life is divided into hours of work, and hours of leisure. It has, however, become customary to consider education almost wholly in terms of work, and little thought has yet been given to education in its relation to leisure. The Lord Chief Justice of England, recently said that "second only to drink, the real cause of crime is the difficulty of finding healthy recreation and innocent amusement for the young." The free hours of a large proportion of youths and adults are occupied with harmful and trifling pleasures. We must realize that it is when the young are idle that they form the habits which may later ruin their lives.

Modern machinery which is steadily increasing man in the production of man's material needs is producing an ever increasing number of leisure hours. Education in the present and future must concern itself with the provision and enhancement of interests to occupy the leisure of both the child and the adult. There must be interests which education alone can give if men are to gain the faculty of using leisure easily, happily and fruitfully.

Such interests can be found in good literature, in music, in useful hobbies and handicrafts, in organized health-giving play and recreation. Organized games provide education in self-control. To "play the game" is instinctive to youth; developed to its fullest, this natural gift becomes an asset of great national worth and importance in the evolution of a high type of citizenship.

Labor unrelieved by recreation produces fatigue, and fatigue produces hate, lawlessness and crime. Recreation unrelieved by labor produces vice, degeneration, and helplessness. Play is the natural expression of all the inborn instincts. When a man is natural and at his best, it is his spirit that plays.

Parents and teachers may well give greater heed to the trend of these modern days, and devote greater and closer attention to the encouragement of proper use of the leisure hours of the children under their care.

#### The First Ten Pounder

Englishman Now On Western Farm Intends To Purchase Land  
Thomas Turnbull Fletcher, of Morpeth, England, described as the first ten-pounder to arrive in Canada, found a place within twenty-four hours after reaching Winnipeg. Under the new scheme under which single British subjects of good physical condition may obtain passage for ten pounds, Mr. Fletcher qualified, and is now placed on a farm at Togo, Saskatchewan, under the direction of the C.P.R. Colonization Department. He is possessed of a little capital and intends to purchase land.

#### WHAT WILL IT DO?

Woman says: "Pinkham's Compound keeps me fit to do my work. I feel better and sleep better. It helped my thirteen-year-old daughter. I took it the first and after my baby was born. I am getting every day."

Lydia E. Pinkham's Vegetable Compound

W. M. U. 1712

#### Boys Kill Timber Wolf

Animal Attacked Them In Woods Near North Bay  
Marshall King and William Hall, two pupils of the Chapeau Indian school, are in great possession of the carcass of a large timber wolf which attacked them when they were driving through the woods with a sleighload of kindling wood.

Injured by injuries sustained in the jaws of a steel trap, the beast sprang upon the sleigh. The boys halted the horses and labored the wolf with slabs of wood. Unable to make their blows prove effective, they jumped to the ground and continued their fight. Finally a well-directed blow caught the animal on the head, killing it.

#### Tooth Weighs 500 Pounds

The largest tooth in the world, 11 feet 2 inches long and weighing more than 500 pounds, has just arrived at the Harvard Dental School Museum. It came from the jaw of a mastodon, and scientists estimate that it is more than 50,000 years old. Before the tooth was found in Alaska, the largest known specimen was the 9-foot one in the Carnegie Museum, Pittsburgh.

Minard's Liniment for the Grippes and Flu.

#### Using Radio To Send Fingerprints

Experiment Tried At Scotland Yard Is a Success

Experts at New Scotland Yard are carrying out experiments in the transmission by wireless of the photographs and fingerprints of criminals.

Remarkable success has already attended their efforts, and Viscount Byng of Vincy, the commissioner, and various high officials who have seen the results, have expressed their approval of the venture.

This application by the police of the latest outcome of electrical research, will in time have effect of far-reaching importance in the prevention and detection of crime, and the thwarting and capture of criminals.

At present the description of a wanted man is sent either by word of telephone, or by various police forces, and frequently the details are of a somewhat vague character; but, however informative a description may be, it obviously lacks the completeness of a reliable photograph, and it does not convey the vivid mental picture which is so helpful to every policeman.

One photograph with which an experiment was made, was that of a criminal named Brown, who murdered Police Constable Gutteridge, and the transmission was so good that the wireless picture was easily identified. Fingerprints of famous criminals have also been transmitted with equal success.

It may be a long time before there is a chain of police wireless stations in England; but officials are certain that they can already transmit to stations in America and on the continent, and thus supply the authorities of various countries with the photographs and fingerprints of the various gangs of international thieves and others whose arrest is desired.

#### Radio Staff Puzzled

Discovered Heads Worn By Pianist Were Cause Of Vibrations

The mysterious reverberation in the KGO radio studio at San Francisco, which caused no end of trouble to the station staff has at last been found.

After an expert piano tuner tried for hours to remedy the trouble, all at this station's pianist were summoned to appear and Eva Garcia was found guilty.

Miss Garcia was "ordered" to leave her beads at home when she played at the studio. Sensitive microphones picked up a note in pitch with the beads and sent the vibrations over the air.

Freedom From Asthma. Asthma is one of the most distressing troubles, sudden in its attacks and prolonged in its agonies. Frequently many things are tried, but nothing seems to give hope of relief. Dr. J. D. Kellogg's Asthma Remedy is the one help which can be depended upon. If you have tried other remedies without success, do not fail to get at once a package of this uniformly successful preparation.

"Should an airplane be referred to as 'she'?" asks an inquiring subscriber. All except the mail planes.

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

If we dig down into the earth to a depth of about 25,000 feet we find a temperature of 200 degrees.

#### Need Continual Warning

Public Seem to Forget Manner of Level Crossing

While the least thing would be to eliminate every level crossing in the country—and steps toward that end are being taken—it will be many years before this menace to public safety is a thing of the past. In the meantime the public must be continually warned.

If every person would get it firmly fixed in his mind that each level crossing is dangerous and that each one must be so regarded when approaching it, the death toll from this source will be materially reduced. Motorists cannot afford to fool with level crossings.

#### RHEUMATIC PAINS

##### DUE TO THIN BLOOD

##### Relief Comes Through the Use Of Dr. Williams' Pink Pills

The most a rheumatic sufferer can hope for in rubbing something on his swollen, aching joints is a little relief, and all the while the trouble is becoming more firmly rooted. It is now known that rheumatism is rooted in the blood, and that as the trouble goes on the blood becomes still further thin and watery. To get rid of rheumatism, therefore, you must go to the root of the trouble in the blood. That is why Dr. Williams' Pink Pills have proved so beneficial when taken for this trouble. They make new, rich blood which expels the poisonous acid and the rheumatism disappears.

There are thousands of former rheumatic sufferers in Canada, now well and strong, who thank Dr. Williams' Pink Pills that they are now free from the aches and pains of this dreaded trouble. One of these, Mrs. W. P. Tall, McKellar, Ont., writes:—"I am one of the willing ones to tell you of the great benefits I received from the use of Dr. Williams' Pink Pills. After lying in bed for seven weeks suffering untold agony with inflammatory rheumatism, finally came through the use of this medicine. I could not move in bed only as they lifted me, and I longed to get up. The pills were given me. The medical treatment I was taking seemed of no avail. Then I was advised to try Dr. Williams' Pink Pills, and soon I began to get relief. After taking six or eight boxes the rheumatism was banished and I have never felt better in my life. It is several years since this happened and I have had no return of the trouble since. I may add that I recommended the pills to two of my friends who were suffering with rheumatism and the pills were equally effective in both cases."

Try Dr. Williams' Pink Pills for another case of rheumatism. Take them as a tonic if you are not in the best of health, and you will find the distance that will keep you well and strong. You can get these pills from any druggist, or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### Western Canadians To

##### Tour Maritimees

##### Principal Towns and Beauty Spots Will Be Visited

In an effort to bring closer together the East and the West, Dr. F. W. Falls, publisher of the "New Outlook," the official periodical of the United Church in Canada, is organizing, with the co-operation of the Canadian National Railway, a tour of the Maritime provinces for the benefit of Western Canadians. The tour will leave Toronto by special Canadian National train on June 17, visiting Ottawa, Montreal, Quebec, going by steamer up the Saguenay River, thence by rail to the principal towns and beauty spots of New Brunswick, Nova Scotia, and Prince Edward Island. More than 80 persons from Winnipeg and the west are expected to take part in the tour, which will be personally conducted.

#### Extensions To Hotels

##### C.P.R. Increasing Accommodations At Calgary and Victoria

Extensions to the Palliser hotel at Calgary and the Empress hotel at Victoria, involving an expenditure of over \$4,000,000 by the Canadian Pacific Railway, have been decided upon. At the Palliser there will be an addition of four floors with 200 rooms and a large extension to the ballrooms—which enlargements are expected to be completed by Stampede week. The Empress will have an entirely new wing with a 200-foot frontage to the water and a 220-foot frontage on Humboldt street. An addition of 270 rooms with baths will bring the total number to 550.

A venerable Scot purchased a radio set. A few days later his friends asked him how he liked the set. "Well, it's aw right to listen to, but those bits are aw guid to read."

A married man says that he was always fond of tongue—and he likes it still.

Quickly soothing and healing Am-Buk is splendid for skin troubles of all kinds. It heals with the aid of Nature's herbs, in Nature's own way.

#### Teeth and Health

Issued by The Canadian Dental Hygiene Council and Published by The Toronto Dental Society

##### THE GINGIVAE OR GUMS

Nature is a watchful Mother and so it is that the clothed teeth, about with tissues that fit and wind about each tooth snugly like a protective garment.

These tissues, then, that so ably protect the delicate tooth membrane and supporting structures from exposure, and injury, are spoken of as the gingivae or gums.

Among the tissues of the mouth, the gingivae stand out in importance because of the fact that while in health they are barriers to disease, when injured they become the portals of entry to infective processes that are ever assailing the body defences.

For this reason the maintenance of the gingivae in health, is of utmost importance.

These tissues have no direct attachment to the teeth at their necks, being simply fitted around closely, and they are so designed that food crushed between the teeth—slides along their sloping surfaces to either side of the arch. Thus, all lodgments of debris which, in their decomposition, would give rise to offensive and disease-producing compounds, are prevented.

Countless numbers of tiny fibres, embedded in the gingivae, pass to and fro in all directions, and give them their firmness and elasticity. Where suffering through injury or other cause, these fibres become weakened with consequent flabbiness of the gingivae exhibiting a lack of tissue tone.

The gingivae are particularly rich in blood supply as is evidenced by their color. By this means there is provided the rapid repair of tissues following upon the frequent minor injuries and scraping that they are subjected to in the chewing of food.

Firm and resistant as are the gingivae to minor injuries, yet where subjected to long-continued and repeated irritations, a valid inflammation is set up; progressing, leads to more serious disease that at once becomes a menace both to the teeth and to the health of the individual.

Sweet and palatable. Mother's Own Externalizer is acceptable to children, and it does its work surely and promptly.

Elephants are keen neither of sight, or scent, nor of hearing, in comparison with other jungle inhabitants.

The most important phase of nautics which is developing in Canada is the use of aircraft in mineral exploration and development.

**FOR NEURALGIA**

**BAYER**

**ASPIRIN**

You doubtless depend on Aspirin to make short work of headaches, but remember that it's just as dependable an antidote for many other pains Neuralgia? Many have found real relief in Aspirin tablets. Or, for toothache, an effective way to relieve it, and the one thing doctors are willing you should give a child—of any age. Whether to break up a cold, or relieve the serious pain from neuritis or deep-seated rheumatism, there's nothing quite like Aspirin. Just make certain it's genuine; it must have Bayer on the box and on every tablet. All druggists, with proven directions.

**Physicians prescribe Aspirin; it does NOT affect the heart**

Aspirin is the trade mark registered in Canada) Inhibiting Bactericidal. While it will destroy the bacteria which cause Rheumatism, it does not harm the heart. The Tablets will be stamped with their "Bayer Cross" trademark.

## NEW LEGISLATION ANNOUNCED IS NOT EXTENSIVE

Ottawa, Ont.—The speech from the throne with which His Excellency the Governor-General opened Parliament, consisted largely of a review of the activities and accomplishments of the Government since the close of the last parliamentary session.

New legislation announced is not extensive. Amendments to the Dominion Elections Act, to the Companies Act, the Fisheries Act, the Narcotic Drug Act, and the act respecting technical education are pieces of new legislation to be forecast.

The speech also states that Parliament will be given an opportunity to approve the multilateral treaty for the renunciation of war, as well as the treaty providing for preservation of the scenic beauties of Niagara. Amendments to the Railway Act, which will grant to the railway commission powers of investigation of affairs in relation to subsidiary concerns and with respect to the issue of capital stock will be introduced.

One of the most important announcements connected with the speech is that legislation to provide for a general pension scheme for the benefit of Canadian National employees will be brought down.

The speech expresses thankfulness for the recovery of His Majesty, refers to the "unprecedented prosperity" of the Dominion, draws particular attention to the development of the mining industry, and suggests further legislation to implement recommendations of the Fisheries Commission. It states that plans are in progress for construction of the national research laboratories.

Reference is made to immigration agreements which have been concluded. Announcement of the introduction of a further branch line program by the Canadian National Railway is also contained in the speech.

It is estimated that authority will be asked for the acquisition of certain railways in both Eastern and Western Canada as feeders of the government-owned system.

## Better Relations Looked For

Balkan States Making Arrangements To Open Frontier

Sofia, Bulgaria.—After years of extreme tension and recurring frontier disputes, Bulgaria and Yugoslavia seem at last on the threshold of better relations.

The frontier, which has been closed for a year and a half, a situation which gave rise to bitter feelings in Bulgaria, is to be opened. Word of this was brought to M. Drott, foreign minister here. A mixed commission will meet at Sofia to draw up details of the frontier agreement.

A formal commercial treaty between the two governments is expected soon to better trade relations.

Commission Now In Europe

London, England.—The Canadian broadcasting commission, the chairman of which is Sir John Aldrich, president of the Canadian Bank of Commerce, left for the continent February 7. It is understood the members have been favorably impressed by the British organization which yields a revenue of about \$5,000,000 yearly under government supervision, divided between the government and the corporation.

Silver Bullion Shipped

Halifax.—Included in the cargo taken aboard the Canadian liner "Aurora," which sailed for Plymouth and London, were 240 bars of silver bullion on London option, and 93 parcels of clothing for the miners relief fund of the Lord Mayor of London, the first shipment for this purpose to go forward from Halifax.

King Signs Documents

London, England.—King George for the first time since appointment of councillors of state on December 4 has been able to sign several documents. It was officially stated that His Majesty signed two state papers appointing Justice Tomlin to be lord appeal in ordinary and member of the privy council.

Killed During Formation Flight

Pennasco, Fla.—Brunell P. Howell, 24, and Andrew Brink, 21, attached to the naval flying squad here, were killed when their aeroplanes crashed in mid-air during a formation flight.

W. N. U. 1772

## Seeking Right To Control Property

Shareholders Of Grand Trunk Railroad Lodge Petition With Government

Ottawa, Ont.—The shareholders of the Grand Trunk Railroad are seeking the recovery of their right to control the railway property, now an integral part of the National Railway system, or fair compensation for their shares.

To this end they have lodged a petition of right with the government at Ottawa, claiming a fiat to sue the Dominion of Canada for the restoration of their property.

The par value of the shares held by the shareholders amounts to about \$180,000,000, and presumably the alternatives before the government, if the law suit was successful, would be either to pay these shareholders \$180,000,000 or to surrender the Grand Trunk lines.

At the moment none of the ministers or deputy ministers concerned in this matter will discuss it.

## Not Delaying Treaty

Suggestion That Canada Is Holding Up Arbitration Fact Is Denied

London, England.—The suggestion that Canada is delaying the arbitration treaty between Britain and the United States, was stated in authoritative quarters here to be groundless.

The reason for the delay is that Britain and the United States are anxious to get the Kellogg pact, upon which they have been concentrating for some time, out of the way first, but the conclusion of the arbitration treaty is expected before the end of the year.

Observations were received from Canada a few weeks ago, and the other Dominion has also sent their views.

It is admitted that the question of setting up the arbitration machinery has been a matter of some discussion, but no great difficulties are anticipated, and there is no particular hurry.

## Nurses Called To Paris From England

The Epidemic Has Reached Serious Proportions In France

Paris.—France's influenza epidemic has become so serious that it has been found necessary to import nurses from England.

This procedure ordinarily would be attended with endless red tape, but much of this has been dispensed with in the present instance to facilitate treatment of cases in Paris hospitals. In some cases doctors have been able to get needed assistance by telephone within twelve hours from London.

One hospital authority estimated that about one-fifth of the Parisian population were affected.

Thus far most of the cases have been mild, but later reports show that there has been an increase in pneumonia and bronchial symptoms following influenza. There has been a corresponding increase in the death rate.

Paying Visit To Japan

London, England.—The Duke of Gloucester will leave London at the end of March for Tokyo, to invest Emperor Hirohito, of Japan, with the Order of the Garter. Determination of the date of the duke's mission was stated to have been made possible "in view of the improvement in the king's health." The duke's party will arrive in Japan early in May.

New Experience For Italy

Rome.—Ice boats and skis may be necessary to replace Venetian gondolas if the weather in that Italian city does not moderate soon. Ice has clogged up the canals and lagoons which serve Venice as streets and traffic there by means of gondolas has become most difficult. The temperature has been as low as 15.5 Fahrenheit.

Married In California

Los Angeles.—Sir, Richmond T. Robin, Canadian financier and former premier of Manitoba, and Miss Ethel M. Leggett, of Los Angeles, were married at the Whitehall Congregational church here, February 5. More than 100 guests attended the ceremony which was extremely simple.

Increase In Jersey Cattle

Toronto.—At the annual meeting of the Canadian Jersey Cattle Club held here reports of registration and transfers showed a marked jump, the figures for 1928 being 24,078, compared with 15,480 in 1927. J. W. McGillivray, Chilliwack, B.C., was elected a vice-president.

## Alberta Keeps Own Police

Province Refuses Not To Make Change In System

Edmonton.—The Alberta Government will not accept the offer of the Dominion Government, that the Royal Canadian Mounted Police shall take over the policing of this province from the existing Alberta provincial police force.

This much was made evident by Premier Brownlee in the legislature, and he gave as his reason the same reason that the Federal Government gave when they refused to remove the R.C.M.P. from the province—that they intended to have their own police enforced by their own police.

## Radio For Peace River

Premier Brownlee Outlines Year's Plans For North Country

Edmonton, Alta.—Short-wave radio stations to link up isolated points in Alberta's north, pending the carrying of telegraph communication to such points; an intensive search for water in areas where water is scarce; three survey parties on soil surveys, and a survey party to examine the pre-Cambrian Shield in the northeast of the province for mineral possibilities, are among plans for the Peace River country this year, Premier Brownlee told the Alberta legislature.

## FRANCE WILLING TO RENOUNCE PENSION RIGHTS

Paris.—A determined effort to insure the economic rehabilitation of Europe will be made when the international committee of experts on reparations begins its sessions here.

Statement that France would waive nearly \$9,000,000,000 in pension rights granted her by the Versailles Treaty, indicates that a conciliatory spirit will be shown to promote solution of the tremendous financial problem left by the world war.

The treaty provided that Germany must pay the French pension bill, estimated to be 150,000,000,000 francs. France, it was understood, would demand from Germany only restitution for damage done to French property and a sum equivalent to the French war debt to the United States and England.

The problem of the experts is to determine how much Germany can pay without being crippled, and how many years she should be allowed in which to pay it. The exact total of reparations never has been fixed and it has become obvious that Germany never could pay the staggering total which the Allied nations would like to get—about \$30,000,000,000.

Economic experts point out that Germany cannot be stabilized economically or industrially until she knows definitely how much she has to pay and can regulate finances accordingly.

War debts will be treated as a corollary by the European experts, whose governments, in effect, hold that their debts to the United States must be paid out of German reparations.

The United States has held consistently that the debts are a separate issue and are payable whether Germany provides sufficient reparations or not.

A third problem is the evacuation of the Rhineland. A plan is being considered to withdraw the troops and substitute an Allied commission of control in the Rhineland.

## FORMS FINANCIAL BUSINESS

C. Rice-Jones, who, until recently, was vice-president of United Grain Growers, has gone into the financial business in Western Canada, and has established his own company, C. Rice-Jones and Co., Limited. To devote himself to this business he has resigned from the Vice-Presidency and from the Board of United Grain Growers, thus severing a connection which has continued during many years.

Prior to 1917, he was President and General Manager of the Alberta Farmers' Co-operative Elevator Company. He helped to bring about the amalgamation of that company with the Grain Growers Grain Company to form United Grain Growers Limited, and since 1917 has been first vice-president of the amalgamated company.

He has many friends in all the Western Provinces, and in addition is well known in financial circles. Mr. Rice-Jones has established connections with financial houses in Toronto, Montreal and New York, and is completing an organization of representatives in western towns and cities.

C. Rice-Jones and Co., Limited will be located in the Curry Block, Winnipeg, where a general investment service will be given on stocks and bonds, and, in addition, the company will participate in the underwriting of new issues of securities.

## Ottawa Athlete Killed

Plane Crashed During Solo Flight At Camp Borden

Ottawa.—J. G. "Jerry" Ault, prominent athlete of this city, died as the result of injuries sustained at Camp Borden when the plane he was flying crashed. Mr. Ault, who was training for a pilot's certificate, was on a solo flight when his machine went into a tail spin.

A court of inquiry will be held at Camp Borden to determine the cause of the accident.

Succeeds Late Major Bell

Ottawa.—The appointment of R. A. C. Henry, director of the bureau of economics of the Canadian National Railways, to be deputy minister of railways, succeeding the late Major Graham A. Bell, has been announced by the prime minister. Mr. Henry takes up his departmental duties with the same salary as his predecessor—\$10,000 per annum.

Enjoying Mild Winter

Copenhagen.—The Greenland Administration Department reports that the country was enjoying an unusually mild winter. There was virtually no ice or snow, it was said, and the temperature was equivalent to approximately 48 degrees Fahrenheit.

## Starving Crowds Raid Food Stores

Hunger-Crazed People In Bessarabia Attack Emergency Stores

Kishinev, Bessarabia.—Starving crowds of men, women and children attacked the emergency food relief stations here and smashed windows, wrecked furniture and seized the small remaining supply of food. To appease the hunger-crazed people, the government relief committee has promised additional food supplies.

The government of Bessarabia, which has been the centre of a desperate famine because of crop failure, held a special meeting of officials to discuss further measures for relieving the situation which has been greatly aggravated because of the non-arrival of food trains which are marooned in heavy snow between Bessarabia and Bucharest.

## Injuries Proved Fatal

Workman For Paper Company Caught In Gear Of Machine

North Bay, Ont.—Despite the effort of a gang of men armed with acetylene torches who cut through gears and shafts of a huge bleaching machine to release him, and the chartering of a special train to rush him to hospital, William Ashcroft, an employee of the International Paper Company, died from shock and loss of blood.

Ashcroft's leg was caught in the gear of the big machine, and, owing to the nature of the mechanism, the gears could not be reversed. The torches were immediately employed and the machine literally cut to pieces. A special train rushed him to hospital in Mattawa, where his right leg was amputated. The shock proved too severe and he died a few hours later.

## Death Of Bremen Flyer

Baron Von Hugenfeld Succumbs To Operation In Berlin Sanatorium

Berlin.—Baron Ehrenfried Günther von Hugenfeld, one of the three men in the aeroplane, Bremen, which was the first to accomplish without a stop the westward crossing of the North Atlantic, is dead after an operation in a Berlin sanatorium.

Born in Koenigsberg, the son of a Prussian army officer, Von Hugenfeld was never strong. When he offered his services during the great war he was rejected on the score of his weak physique. He persisted, however, and was finally accepted as a motorcycle dispatch carrier.

## Gain In Ship Production

Great Britain and Ireland Lead List In Total Tonnage

New York.—Lloyd's register of shipping has announced that an increase of nearly 20 per cent. in the world's production of merchant vessels was established in 1928.

Great Britain and Ireland, which lead the list in total tonnage had the largest percentage and all maritime countries except the United States shared in the 100,000 gross tons increase over 1927.

Mercant tonnage launched in the United States was only slightly more than half the 179,218 tons aggregate for 1927, but Great Britain and Ireland gained 18 per cent. and all other countries combined 32 per cent.

## AIR SURVEYS FOR LAST YEAR BREAK RECORD

Ottawa.—The pre-eminent of aerial surveying for mapping Canada on account of great speed combined with a wealth of detailed information was the keynote of the report of the Aerial Surveys Committee presented by B. W. Waugh, D.L.S., to the annual convention of Dominion Land Surveyors. Although aerial surveys were inaugurated in Canada only seven years ago, they are rapidly becoming a most popular method of mapping was the statement of the committee.

During last season, which was a record for Canadian operations, 60, 145 square miles of territory were photographed by vertical and oblique photography. In Nova Scotia 2,570 square miles were photographed. In New Brunswick, 823; Quebec, 12,382; Ontario, 17,000; Manitoba, 7,631; Saskatchewan, 14,800; Alberta, 4,300; and British Columbia, 4,604. Altogether, 109,122 photographs were taken, said Mr. Waugh.

## TOWNSITE PLANS FOR CHURCHILL ARE DISCUSSED

Winnipeg, Man.—Townsite plans for the Port of Churchill on Hudson Bay, it is understood were considered when Col. A. E. Dumas, D.S.O., chief engineer of the department of railways and canals, Ottawa, met Hon. D. G. McKenzie, provincial secretary and minister of mines and natural resources, here.

Colonel Dumas arrived on what he said was a rush trip to the city and shortly afterward was joined at the Fort Garry Hotel by Mr. McKenzie. Neither Colonel Dumas nor Mr. McKenzie would state what their purpose was, but it was authoritatively stated that the subject of their discussion was the townsite at Manitoba's seaport.

It is understood that the question of the port's townsite has been under consideration at Ottawa and Winnipeg for some considerable time. About the last official pronouncement about it came from Major Graham Bell, the late deputy minister of railways, in August, 1927. At that time he said, "I wish to warn all prospective purchasers that there is no land or town lots for sale in the vicinity of the proposed harbor site."

## To Protect Gold Reserve

Bank of England Raises Rate One Per Cent

London.—Directors of the Bank of England raised the bank rate 1 per cent., lifting it to 5½ per cent. from the 4½ per cent. level at which it had rested since April 21, 1927.

The necessity for some measure to protect the bank's gold reserve from encroachment by speculators in the United States had long been recognized in the money market, but it had been hoped that a working agreement between the central institution here and that in the U.S. would obviate the need of such a measure.

The net outflow of gold from the Bank of England in one week was more than \$3,000,000, reducing the bank's stock to less than \$150,000,000, and the higher rate was imposed in an endeavor to raise the sterling rate of exchange and to check the outflow of gold.

Autos Take Heavy Toll

Vancouver, B.C.—Thirty persons lost their lives in automobile accidents in Vancouver during 1928, and 723 others were injured in a total of 10,529 accidents reported, according to police statistics just published. Automobile accidents for the entire province of British Columbia during the year numbered 87,500 against 77,500 in 1927, and an average of three persons were killed for each 1,000 automobiles operated.

Liquor Billed As Asbestos

Winnipeg, Man.—A cartload of liquor, valued at approximately \$50,000, was seized by a combined squad of city police and provincial enforcement officers in St. Boniface. The liquor was billed as asbestos, the bill of lading showing that the shipment had been made by the Canadian Asbestos Company, Ltd., of Cote St. Paul, Montreal, to the Winnipeg Roofing Company.

Figures Show England Going Dry

London, England.—In its own accord England is going dry. At least, if the consumption of spirits declines in the future as it has in the past 28 years. In 1900, the consumption of spirits in England was 32,239,522 gallons. Last year's figure is but 10,412,921. Other means of recreation, such as the movies, radio, etc., are given as the reason for this decrease.

Liquor Profits For Charity

Quebec.—In the legislative assembly Hon. Athanasie David, provincial secretary, announced that the sum of one million dollars would be taken from the profits of the Quebec liquor commission next year and turned over to the charitable bureau to further aid of charitable institutions.

Will Build New Cruisers

Washington.—An increase in the United States navy by 15 cruisers and an aeroplane carrier has been voted Tuesday by the senate, 68 to 12, with the stipulation that the bills be laid down before July 1, 1931.

Zepplins Plans New Trip

Friedrichshafen, Germany.—The dirigible Graf Zeppelin is to start the end of February on a round trip to Egypt and Palestine.

## The Plant and Business of the Blairmore Vulcanizing and Battery Station TO BE SOLD

The undersigned having taken an option on a certain merchandising business in South Alberta, expiring April 1st next, we are now offering our above Plant and Business for sale upon reasonable terms to a reliable purchaser, giving possession any time up to April 1st.

We have the nicest paying business in The Pass country, investments considered. Our books are open to any bona fide intending buyers for inspection. The past 1928 year was the best we have had for profits in the past eight years and this proposition is worth while investigating by anyone wanting a business of this kind.

For further information, apply to  
**W. M. BUSH, Proprietor, Blairmore**

Some folks are in Calgary this week to hear the talking movies. Most of us are satisfied to see the dames in action on the screen without hearing them.

At the present rate of increase, it is estimated the population of the world, which is now about 1950 millions, will be doubled in 104 years. Wait and see.

The Alberta Grand Lodge of the I. O. O. F. meets in Calgary next week, opening with the Rebekah Assembly on Tuesday, the Grand Encampment on Wednesday and Grand Lodge on Thursday.

Some one told us recently that two dollars bills were so covered with germs that he decided not to pay his arrears subscription to this paper until a more healthy season. We beg now to assure our friend that during the cold spell is the accepted time to pay that bill.

The annual meeting of the Alberta Division of the Canadian Red Cross Society will be held in Edmonton on February the 23rd, at the MacDonal hotel. The programme will include an address of welcome by Mayor A. U. G. Bury, the roll call of delegates; address by the president, His Honor Lt.-Governor Egbert, and general reports. Part of the programme will be broadcasted through the kindness of the Edmonton Journal.

The Alberta Liquor Control Board will build a new vendor store at Hanna.

The marriage of Bob McKelvie, of Brooks, to Miss Alberta Maud Baker, of Saskatoon, took place at Saskatoon on January the 31st.

The memorial hall at Drumheller is offered for sale. If a buyer is found, the proceeds will be divided between the Legion and the library.

Harold Scott, of the Distillers Limited, Medicine Hat warehouse, formerly of Blairmore, accompanied the "Hat" Monarchs here on Tuesday and incidentally shook hands with old friends.

Announcement is made that the partnership subsisting at Coleman between John A. Kerr and Roland Laslett has been dissolved and that Mr. Kerr's interest has been purchased by Mr. Laslett. The dissolution was effected about two weeks ago.

Five members of the Sons of Freedom (Dukhobor) at Nelson were sentenced to pay fines aggregating \$400, being found guilty on 20 charges of interfering with school activities in the Glade, Pass Creek and Brilliant vicinities. A sixth, Paul W. Lasoff, who recently arrived from California, is being held by the police until it is ascertained that his entry into Canada was legal. He lost his citizenship rights in California.

## Local and General Items

One of the strangest things in the world is how few dentists have false teeth.

Nath. Marshall, boiler inspector, has been in the district for the past week.

The man who hates members of another race, usually is a poor specimen of his own.

Some men take good care of an automobile; others treat it like one of the family.

A. A. Barker, leading merchant, died suddenly at Amherst on February the 3rd.

Man was made before woman to give him time to think of an answer to her first question.

Councillors and school trustees were elected by acclamation at Pincher Creek.

Why not place license plates under the car and give the pedestrians a fair chance to get the number.

Why is a man like dough? Not because a woman needs him, but because he is hard to get off her hands.

Dr. and Mrs. A. H. Kaker, of the Keith Sanitarium, Calgary, who have been touring Europe, have arrived at Montreal.

Our art has lost contact with the soil. Not a single comic strip artist knows which end of a cow gets up first.

MASON & RISCHE PIANO, almost new, cost \$660—What offer. Apply Geo. Kafoury, above John A. Kerr's store.

A biologist has decided that the ape is not man's ancestor. Certain inmates of the zoo will rejoice at this bit of news.

Mrs. A. L. Freebairn, of Pincher Creek, will act as accompanist at the forthcoming "Crows' Nest" Musical Festival.

After dropping out of the circuit for some years, Lethbridge citizens have again signed up for the six-day Chautauqua this coming summer.

Gordon Stewart Northcott, convicted slayer of three boys on his Wineville chicken ranch, has been sentenced to hang on April 15th.

Joseph Montalbetti has moved his stock of furniture and effects into the store just east of The Enterprise, formerly occupied by D. Emery.

Greenhill Temple No. 10, Pythian Sisters, will hold a St. Patrick's Tea and Sale of Home Cooking in the Lodge Hall, Blairmore, on Wednesday afternoon, March 20th, from 3 to 6. Whist and dance in the evening. Alternatt orchestra.

An autoist who met with an accident was discussing the worries of the average auto driver, and said it was not the cost of the car, but the upkeep, that got him. To which Bill Bell replied: "Yes, and the turnover."

A grand entertainment, including a play entitled "Wanted A Wife," will be staged at the Hillcrest theatre on Wednesday night, February the 27th, by Hillcrest talent, under the auspices of the United church. A splendid programme has been arranged.

According to word received from Trail, B.C., Jollett Houbreges and Davie Kemp, two former Blairmore boys, are going strong in hockey. The Trail team is now at the top of the West Kootenay league with upwards of fourteen points, followed by Roseland with eight and Nelson two. So far this season, Davie Kemp in the net has had but ten goals scored against him. Trail's lineup is as follows: Kemp, goal; Reddick and Houbreges, defence; Kendall, Lyons, Brennan, Gustason, Wheatley and Mackie.

Have you tried the famous "Gold Buckle" oranges.

Dr. Anderson, eyesight specialist, of Calgary, is in town today.

Dr. W. E. Spankie is the new exalted ruler of Calgary Elks.

Miss Madeleine Chardon returned this morning from a business visit to Calgary.

The very best ever grown—"Gold Buckle" oranges. Now on the market.

You should try the new "Gold Buckle" oranges. Phone or call on your grocer.

Frank Celli was a business visitor here during the week from Creston, B.C.

Mrs. Enoch Williams is down from Creston to spend a few days with her husband.

The Alternatt Orchestra furnishes music for the Moose Saturday night dances.

Large crowds attend the Moose dances each Saturday night and report good times.

Mr. J. Angus McDonald is a-limping these days, having had his leg hurt at the mine.

Messrs. A. E. Haug and F. Thael, of Lethbridge, were in The Pass during the week.

W. H. Chappell, chairman of the Blairmore Board of School Trustees, attended the trustees convention at Lethbridge last week.

Seeing some folks parade the streets, we are forced to ask: "Why not form a branch of the Pet Stock Association in Blairmore?"

A watch, picked up at the arena last night may be had by the owner proving property at the residence of Mrs. J. McPhail and paying for this notice.

Messrs. Plunkett & Savage Limited have just unloaded a car of "Gold Buckle" oranges, the first of this quality to reach the local market and really the finest ever grown.

Human passions, crackling to the whiplash of a cruel land! "The Grip of The Yukon"—a terrific story with terrific scenes. It will grip you, too, when you see the picture at the Orpheum next week.

Orpheum, Friday and Saturday, "The Shopworn Angel," featuring Nancy Carroll, the star of "Able's Irish Rose," Gary Cooper and Paul Lucas. We recommend to you to see it, it's good entertainment throughout. You'll talk about it.

Whatever you do, do not fail to see "Plastered in Paris," with Sammy Cohen. If you were going to Paris, you would get the right dress; but if you are going to see "Plastered in Paris," grab any dress, for every moment of it is too funny to miss! At the Orpheum next week.

ENGAGEMENT

RINGS

A Diamond, a Sapphire, or Emerald, in a mounting of platinum or white gold of carefully considered design — the ring perfect for her.
